Defying the changing tides of time is no small feat, but Wrangler has been a force to be reckoned with since the very beginning. In celebration of the legacy that defines our brand today, this collection pulls inspiration straight from our archives and takes cue from four distinct eras that testify to our cultural influence as a whole – the Blue Bell Overall Company of 1919, War & Peace '60s, Psychedelic '70s, and '80s Racing.

In keeping with tradition, we employed nothing but the highest-quality materials and craftsmanship to bring each capsule to life. Many of the pieces in this collection are proudly made in the USA of Cone Denim fabric and manufactured at our production facility right here in our hometown of Greensboro, North Carolina.

We all have history. Pay tribute to yours by shopping all the timeless styles you love, *exclusively at Fred Segal.*
